Abstract

This is our abstract and it's really something else! SO abstract! And so concise!

Keywords: add, some, keywords, words, keys, Yo, Key, Word

An Attempt at Collaboration with GitKraken

Wehman, Chan, Ditchman, and Kang (2014) conducted a case study to examine the effect of supported employment on vocational rehabilitation outcomes of transition-age youth. Other researchers examined the employability skills for entry-level employees with and without disabilities (Ju, Roberts, & Zhang, 2013).

Methods

We report how we determined our sample size, all data exclusions (if any), all manipulations, and all measures in the study.

Participants

Material

Procedure

Data analysis

We used R (Version 3.6.1; R Core Team, 2019) and the R-packages *devtools* (Version 2.2.1; Wickham, Hester, & Chang, 2019), *dplyr* (Version 0.8.3; Wickham, François, Henry, & Müller, 2019), *forcats* (Version 0.4.0; Wickham, 2019a), *ggplot2* (Version 3.2.1; Wickham, 2016), *here* (Version 0.1; Müller, 2017), *janitor* (Version 1.2.0; Firke, 2019), *papaja* (Version 0.1.0.9842; Aust & Barth, 2018), *purrr* (Version 0.3.3; Henry & Wickham, 2019), *readr* (Version 1.3.1; Wickham, Hester, & François, 2018), *rio* (Version 0.5.16; C.-h. Chan, Chan, Leeper, & Becker, 2018), *stringr* (Version 1.4.0; Wickham, 2019b), *tibble* (Version 2.1.3; Müller & Wickham, 2019), *tidyr* (Version 1.0.0; Wickham & Henry, 2019), *tidyverse* (Version 1.2.1; Wickham, 2017), *tinytex* (Version 0.17; Xie, 2019), and *usethis* (Version 1.5.1; Wickham & Bryan, 2019) for all our analyses.

Results

Figure 1 demonstrates the relationship between teacher experience and student's math scale scores. The two regression lines demonstrate differences between free and reduced price lunch status, which students who are not eligible for free and reduced price lunch scoring, in general, higher than those who do. In general, it does not appear that teacher experience significantly impacts this difference, as math scores for students both with and without free and reduced price lunch status appears to increase at approximately the same rate.

Discussion
